COVID-19 POLICIES

SYMPTOMS + SICKNESS

We are asking every leader and student to do a self check before attending Mayhem. The expectation is that they would not attend if they show any symptoms of Covid-19, such as fever, chills, cough, shortness of breath, difficulty breathing, fatigue, body aches, headache, sore throat congestion, loss of taste or smell, nausea, vomiting or diarrhea. If someone attends who clearly has these symptoms, we will ask them to leave as soon as possible.

MASKS

Everyone must wear a mask at all times during student ministry programs.

SOCIAL DISTANCING

We are asking everyone to do their very best to maintain 6 ft of social distance whenever possible

HAND SANITIZING

We will provide hand sanitizer stations and encourage all participants to use hand sanitizer regularly throughout the event. Specifically, we will encourage hand sanitization as student arrive and leave the event.

MEETING SPACE

Our goal is to create a touchless experience for students to prevent the spread of germs on surfaces. We will meet outside whenever possible. We will not meet inside unless inclement weather forces us to use indoor spaces. If weather moves us inside, we will have no more than 10 students per room and each room needs to have 36 square feet per person in the room to ensure proper social distancing.

FOOD + DRINK

No food or drink will be provided or shared amongst students

BATHROOM USE

We will do our best to avoid using bathrooms at each home. In case of emergency we will allow bathroom use. Only one person will be allowed in the bathroom at a time. After each use it must be cleaned and disinfected by a trained volunteer leader.

GROUP SIZE

Each home group will have no more than 25 people in attendance.

ADULT SUPERVISION

We will ensure that there is adult supervision at every gathering we host. Adult small group leaders will supervise students at high school gatherings. At middle school gatherings, hosts will supervise the time supported by the small group leaders.

TEMPERATURE CHECKS

Upon arrival, all employees and volunteers will have their temperature taken and symptoms screened. Anyone with a temperature over 100.4 or showing COVID-19 symptoms should go home.
